Without assuming any burden other than that imposed by operation of law and without reducing or removing Plaintiffs' burdens of proof on its affirmative claims, Defendant alleges and asserts the following defenses in response to Plaintiffs' Counterclaim and Plaintiffs' assertion of infringement of the '697 Patent, undertaking the burden of proof only as to those defenses deemed affirmative defenses by law, regardless of how such defenses are denominated herein. In addition, Defendant specifically reserves all rights to allege additional defenses that become known through the course of discovery.

**FIRST SEPARATE DEFENSE**  
**(FAILURE TO STATE A CLAIM)**

1. Plaintiffs have failed to state a claim upon which relief can be granted.

**SECOND SEPARATE DEFENSE**  
**(NON-INFRINGEMENT)**

2. Defendant has not infringed, and does not infringe, either literally or under the doctrine of equivalents, any valid and enforceable claim of the '697 Patent, whether directly, indirectly, contributorily, by inducement, individually, jointly, willfully, or otherwise.

**THIRD SEPARATE DEFENSE**  
**(INVALIDITY)**

3. The claims of the '697 Patent are invalid for failure to comply with one or more of the statutory requirements of or conditions for patentability specified by 35 U.S.C. §§ 101, et seq., including but not limited to 35 U.S.C. §§ 101, 102, 103, and/or one or more paragraphs of § 112, and the rules and laws pertaining to those provisions as will be explained in Defendant's P.R. 3-3 Disclosure of Invalidity Contentions and Defendant's Ineligibility Contentions.

**FOURTH SEPARATE DEFENSE**

To the extent that Plaintiffs or any licensee of the '697 Patent failed to properly mark any of their relevant products as required by 35 U.S.C. § 287 or otherwise give proper notice that Defendant's actions allegedly infringed any claim of the '697 Patent, Defendant is not liable to Plaintiffs for the acts alleged to have been performed before Defendant received actual notice of infringement.
